DETAILED ACTION

The following action is in response to the amendment filed for application 10/712,683 on April 24, 2006.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald Harrington on May 17, 2006.

The application has been amended as follows:

claims 2-4, 6-8 and 10-30 have been canceled.

In claim 9, on line 14, "sensors" has been replaced with --sensor--.

Allowable Subject Matter

Claims 1, 5, and 9 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the swap-shift power transmission control system as claimed, and particularly including boosting the pressure of the friction element for second gearset before a start of torque transfer, the start of the torque transfer immediately following the pressure boost, detecting boost time errors during a current shift and an error conversion unit for converting the errors to boost pressure time adjustments for the friction element for the second gearset during a

subsequent shift, and including the remaining structure and controls of claim 1. The present invention also particularly includes controlling the friction element command pressure on the friction element for the second gearset following completion of torque transfer using a closed-loop control in which a shift progression rate of the second gear set is used to develop a feedback variable for the closed-loop control, and including the remaining structure and controls of claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 571-272-7095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
